

COLORS

Our palette features a range of both bright and neutral tones to celebrate the unique design needs of each aquatic venue.

The Life Floor Studio Team encourages 3+ colors for every design. We believe imagination should be boundless, so the number of colors included won't influence the price. Surfaces that feature variety are more interesting and easier to maintain.

From gradients to bands of color, these 40 tones can be used for visual cues, theming, and more!

Custom colors are available by request, and development fees will apply.
